

WORK PLAN
STUDENT SCIENTIFIC CLUB
"World of Psychology"
for the 2024-2025 academic year

No	Theme	Date conducting
1.	Discussion and determination of the key tasks and activities of the club and development of a work plan for the 2024/2025 academic year. This will be done during our field organizational meeting, which is a crucial step in setting the direction for our club's activities. We will also plan an excursion to the Museum of Folk Architecture in Pyrohiv as a team-building activity.	September 2024
2.	Study motivations for involving students in scientific activities and their participation in scientific events. Presenting information about scientific events at the regional, all-Ukrainian, and international levels, such as student conferences, competitions, and grants, which will take place during the current academic year. Discuss the functions, methodologies, and challenges associated with conducting psychological research. Participation of the scientific club with representatives of the NGO "Together" (on the "World Mental Health Day"). Organization of an excursion for students	October 2024
3.	Embark on a journey to uncover the 'Secrets of Ancient Kyiv,' an excursion that promises to be both educational and fascinating.	December 2024
4.	Analysis of students' work in planned student conferences, scientific and practical seminars, and round tables. Passing training on preparing for a speech at a scientific student conference, writing scientific papers for competitions, and correctly designing lists of used sources and literature. Analysis of scientific achievements of students studying psychology, discussion of methods for processing the obtained empirical data within the framework of implementation of Students Scientific Discussion of problems and prospects for psychological research.	February 2025

5.	<p>We will celebrate 'Psychology Week' and 'All-Ukrainian Psychologist's Day' with an educational event among psychology students. This event will focus on the importance of actualizing knowledge and the evolving requirements of a modern psychologist. We will also hold a round table discussion on 'Interpersonal relationships of people. The concept of love, friendship, hatred, humanity, and mutual assistance ', and analyze modern psychological literature, particularly the works of Mark Manson.</p>	April 2025
6.	<p>The final meeting of the student scientific club will be held, during which students will present reports on the results of their research work for the academic year. Discussion of the general achievements and results of the activities of the scientific club during the 2024/2025 academic year.</p>	May 2025
